Manual ratchet with lashing straps driven by a pneumatic cylinder
Ratchet-type spare door

COMPETITIVE DIFFERENTIALS

Application

Ideal for the transportation of replanted logs
Pneumatic suspension option for single-axle trailer
Increased stability and lightness

Wide-gauge chassis

Increased stability and safety
Reduced suspension and tire wear

Extralight removable stanchion

Increased durability and ease of maintenance

Distributor Network

More than 35 service points throughout the country

100% LED electrical installation

Increased durability and safety

90x90 bearing and ventilated hub

Increased brake lining service life

Bracket of rear lights with guard

Increased rear component protection

Reinforced floor between beams

Increased resistance and robustness

Lashing straps driven by a pneumatic cylinder

Increased practicality and safety

Cargo box made of high-strength steel

Increased durability and resistance
